## REPORT OF ANIMALS USED BY OR UNDER CONTROL OF RESEARCH FACILITY (Attach additional sheets if necessary or use APHIS FORM 7023A)

A. Animals Covered By The Animal Welfare Regulations	B. Number of animals being bred, conditioned, or held for use in leaching, testing, experiments, research, or surgery but not yet used for such purposes.	C. Number of animals upon which leaching, research, experiments, or tests were conducted involving no pain, distress, or use of pain-relieving drugs.	D. Number of animals upon which experiments, leaching, research, surgery, or tests were conducted involving accompanying pain or distress to the animals and for which appropriate anesthetic, analgesic, or tranquilizing drugs were used.	E. Number of animals upon which teaching, experiments, research, surgery or tests were conducted involving accompanying pain or distress to the animals and for which the use of appropriate anesthetic, analgesic, or tranquilizing drugs would have adversely affected the procedures, results, or interpretation of the teaching, research, experiments, surgery, or tests. (An explanation of the procedures producing pain or distress in these animals and the reasons such drugs were not used must be attached to this report)	F. TOTAL NO. OF ANIMALS (Cols. C + D + E)
4. Dogs	12		10		10
5. Cats	25		4		4
6. Guinea Pigs	0		00		
7. Hamsters	0		0		
8. Rabbits	20	6	388		394
9. Non-Human Primates					
10. Sheep					
11. Pigs	16		65		65
12. Other Farm Animals					
Calf	4		32		32
13. Other Animals					
Tree Shrew	20	5			5

### ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, leaching, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all the exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

### ASSURANCE STATEMENTS

- I, professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of sedative, analgesic and tranquilizing drugs prior to surgery and following actual research, teaching, testing, surgery, or other mention of use followed by this research facility.
- Each principal investigator has considered alternatives to painful procedures.
- This facility is adhering to the standards and regulations under the Act, and it is required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all the exceptions is attached to this annual report, in addition to identifying the IACUC approved exceptions. This summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- The principal investigator for this research facility has appropriate authority to make the provisions stated, are adequate care and to oversee the adequacy of their respect to animal care and use.

*USDA Annual Report of Research Facility Exception Summary*

There is one exception to the exercise plan for 12 dogs that has been approved by the IACUC. The dogs normally have access to outdoor dog runs on a daily basis with the exception of weekends and holidays when they are given access time permitting. The dogs are also provided exercise in an outdoor play yard in addition to a minimum of 30 minutes of exercise within the animal housing room at least once daily with the exception of weekends and holidays when they are released time permitting. For the collection of urine and feces, dogs in one particular study are confined in their cage with a stainless steel collection tray placed underneath the cage for 3-6 days. Feces are collected within the cage several times daily, urine is collected and measured daily. The cages provide the minimum amount of floor space required by the Animal Welfare Act and Regulations. During this time the dogs are each given individual human attention for a minimum of 15 minutes daily, and they are able to see other dogs. The dogs remain in their normal housing room to eliminate any potential distress that being moved out of their normal housing room might cause. Each dog has at least one enrichment item (chew-toy, hard ball, etc.) in its run at all times. Non-edible enrichment items are provided for each dog during critical collection periods. Enrichment items are rotated to keep them interesting to the dogs.
